Prices assume standard 4 5/8" jambs—CUSTOM SIZES MAY BE ORDERED (additional costs may apply)

Shipping/handling quoted on a per-order basis

Model A Framing Information

- Clearance from ceiling sheetrock to top of key (5" casing) is approximately 8-1/4".
- Capital extends 1-1/8" from back edge of molding.
- Plinth base capital extends 1-5/8" from back edge of casing.
- Light switch boxes should be mounted minimum of 6" from rough opening.
- *Subtract 12" off all vertical measurements when using 8' ceilings.
- Finished opening heights are standard 92" or 96" from finished floor for 9' ceilings and 80" for 8' ceilings.
- Column heights will vary on Round Top Cased Opening depending on finished opening width. Column heights are determined by subtracting half the finished opening width from the finished opening height of the cased opening.
- Minimum distance of framed opening to corner is 7". This allows for 3/4" thick baseboard with 1/2" return.
- Frame opening width is finished opening width +2".
- Rough opening must be within 1/4" of plumb, otherwise leave additional space.
